

Complete technical equipments

Water storage

Agricultural storage

Industrial storage

Part number Level detectors (panel and electrical connections not included)

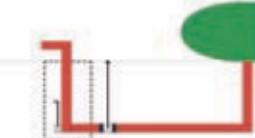

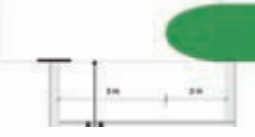

To be connected to pump control panels to automate filling and emptying operations: triggering at a **pre-set factory level** (to be specified when ordering).

The detector can also trigger an audio or visual warning (using an electric control panel)

Several materials are available to adapt to the stored liquid and the tank's environment:

AEAELN105		<p>Float type level detector: for clean water and tanks with a volume in excess of 50 m³ Includes: Float type level detector + ballast + gland nut + 10 m flex Installation requires a 120 mm vent (to be specified when ordering).</p>
AEAELN12		<p>External detector: for raw sewage, effluents and biological slurry, all volumes Includes: contactor with ballast + fabric with double sided Velcro</p>
AEAELN14		<p>Flag detector: All waters, all volumes, also enables visual marker on the tank Includes: flag + ballast and stainless steel flex + electric contact + 1ml of flex + 1 120 mm vent</p>

Part number Fire-fighting equipment (installations comply with NF62-200)

E09-INC03		<p>Set of hose for angled outlet PVC DN 100 for tanks equipped with E11-INC14 - 6 ml of PVC-P DN 100 hose - Sleeves, elbow and flanged couplings - Valve tap and extension - Purge and angled outlet (installation and inspection chamber not included)</p>	
E09-INC04		<p>Set of hose and DN 100 suction blue fire hydrant for tanks equipped with E11-INC14 - 6 ml of PVC-P DN 100 pipe - Sleeves, elbow and flanged couplings - Valve tap and extension - Suction blue fire hydrant (installation not included)</p>	
E09-INC16		<p>Set of hose and Dauphine or Keyser fire hydrant for tanks equipped with E11-INC14 - 6 ml of PVC-P DN 100 pipe - Sleeves, elbow and flanged couplings - Valve tap and extension - DN 100 fire hydrant (installation not included)</p>	
E09-INC15		<p>Set of steel hose for DN 100 angled discharge outlet for tanks equipped with E11-INC14 - 6 ml of PVC-P DN 100 pipe - Sleeves, elbow and flanged couplings - DN 100 symmetrical coupling and cap - Valve tap and extension - Purge and angled outlet (installation and inspection chamber not included)</p>	

Part number Miscellaneous accessories

E09-HYD05		<p>Suction and manual distribution kit for hydrocarbons with volume meter</p>
ASKPFSP04		<p>Mixing module for tanks - 200 m³: 72m³/h pump on skid with 2 x 8 m of fitted DN 80 flexible pipes</p>
ASKPFSP05		<p>Mixing module for tanks over 200 m³: 160m³/h pump on skid with 2 x 8 m of fitted DN 100 flexible hose + 2 valve supports</p>
ACIEAAU01		<p>Semi-automatic mechanical DN 50 filling pipe at the bottom of the tank Installation requires a DN 500 mm manhole (to be specified when ordering).</p>

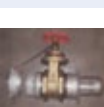

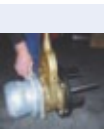

Options

Water storage

Agricultural storage

Industrial storage

Part number		Accessories to be added on the top of the tank
ACIEVRA27		DN 100 polyamide flanged vent with PVC cap
ACIEVRA26		DN 100 flanged polypropylene vent with PVC cap
ACIEVRA03		Ø 120mm flanged polypropylene vent DN 120 mm
ACIEVPV01		Ø 146 welded vent PVC DN 146 mm
ACIEVRA17		Ø 120 flanged vent with activated fibre cartridges
ACIEVRA04		DN 80 gas removal with stainless steel filter prop and activated fibre cartridge
ACIEVIN01		Stainless steel bodied Ø 250 mm inspection hatch
ACIEVIN03		Stainless steel bodied Ø 500 mm inspection hatch
ACIEVIN07		Stainless steel bodied Ø 500 mm inspection hatch with ventilation cover
ACIEVTP01		One DN 25 overflow
ACIEVTP12		One DN 50 overflow
ACIEVTP20		Extra DN 50 overflow with check valve
ACIEVTP08		DN 50 overflow with hinged stainless steel check valve
ACIEVTP13		One DN 80 overflow
ACIEVTP15		Extra DN 80 overflow with DSP 65
AEABCSY10		DN 65 DSP cap for overflow with DSP 65 coupling
ACIEVRA32		One DN 80 angled filling pipe with symmetrical coupling and cap
ACIEVTP14		One DN 100 overflow

Part number		Accessories to be added on the side of the tank
ACIVITR23		DN 25 side tapping, with turn valve
ACIVIGU02		DN 50 side tapping with slide valve and DN 50 symmetrical coupling
ACIVITR22		DN 50 side tapping, with turn valve
ACIVITR13		DSP 65 filling tapping, with valve, coupling and cap
ACIVIGU21		DN 80 side tapping with slide valve and DN 80 symmetrical coupling
ACIVIGU27		DN 100 side tapping with slide valve and DN 100 symmetrical coupling
ACIVIGU29		DN 100 side tapping with stainless steel antivortex, valve and DN 100 symmetrical fire coupling and cap
ACIVIGU08		DN50 polyamide side tapping with turn ACS valve and stainless steel symmetrical coupling
ACIVIGU37		DN 100 stainless steel side tapping with ACS slide valve and DN 100 stainless steel symmetrical coupling
ACIVIGU35 + AEARAGA06		DN 150 suction side tapping with stainless steel antivortex, spherical DN 150 coupling + valve support. Should only be installed if the tank has a Ø 500 or Ø 250 hatch
ACIVIBA53		Flanged DN 100 suction tapping with antivortex, cast iron turn valve, DN 100 symmetrical coupling and cap
ACIPRGE04		Valve thermal protection - Triple-layered insulation 460 x 460 x 200 mm
ACIVITR08		DN 50 side tapping with PP valve, DN 50 symmetrical coupling and cap
ACIVITR09		DN 50 angled side tapping with PP valve, DN 50 symmetrical coupling and cap
ACIVITR34		DN 80 side tapping with PP valve, DN 80 symmetrical coupling and cap
AEAPRDT01		Padlock set to lock the PP valve
AEAKISP12		Adjustable valve support

Options

Water storage

Agricultural storage

Industrial storage

Part number	Accessories to be added on the bottom of the tank
ACIVIIN29 + ACIRAP007	DN 100 stainless steel antivortex set + 4" x 110 sleeve

ACIVIIN31	DN 160 stainless steel antivortex set with 8 hole free flange for underground emptying
-----------	--

ACIVIIN32	DN 200 antivortex set with 8 hole free flange for underground emptying
-----------	--

Code	Hose and other spare parts
------	----------------------------

AERASY06	Symmetrical coupling with multiserrated hose shank for reinforced DN 50/DC 55 flexible hose
----------	---

AERASY08	Symmetrical coupling with multiserrated hose shank for reinforced DN 65/DC 70 flexible hose
----------	---

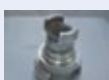

AERASY09	Symmetrical coupling with multiserrated hose shank for reinforced DN 80/DC 80 flexible hose
----------	---

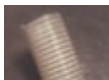

AERASY01	Symmetrical coupling with multiserrated hose shank for reinforced DN 100/DC 100 flexible hose
----------	---

AERASY30	DN 80/DN 50 double symmetrical adapter
----------	--

AEAYATU12	DN50 corrugated flexible hose
-----------	-------------------------------

AEAYATU17	DN 50 smooth flexible hose for compression sleeve
-----------	---

AEAYATU28	DN 50 (3 ml) flexible hose with special hydrocarbon fixture
-----------	---

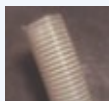

AEAYATU19	DN 70 flat hose (only for discharge)
-----------	--------------------------------------

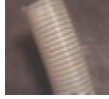

Part number	Hose and other spare parts
-------------	----------------------------

AEAYATU15	DN 80 reinforced flexible hose
-----------	--------------------------------

AEAYATU01	DN 100 reinforced flexible hose
-----------	---------------------------------

AEAKIPL0	Self-cleaning gutter collector DN 80 and DN 100
----------	---

ACIRAPV02	Angled tapped compression sleeve 1"1/4 for connecting gutter collector to DN 50 smooth hose
-----------	---

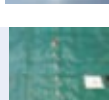

AEARACP04	Angled tapped 2" compression sleeve for connecting DN 50 smooth hose to the tank
-----------	--

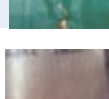

ACIPRAU01	PVC repair kit
-----------	----------------

ACIVIZIP1	1 ml waterproof zip fastener
-----------	------------------------------

TGEOTEX-S	Geotextile – 600 cm piece
-----------	---------------------------

FTAPISPRS	100% polyester PVC-coated fabric ground sheet - 500 g/m ² minimum - Waterproof - (Grey or green as per availability)
-----------	---
